## REPORT - 02: BUKPI TEAM

~T. Chinkhansiam, Bukpi TEAM

With the guidance of the Lord, the Delhi BYF initiative Project Nehemiah (PN) is able to begin a new chapter. Once again it set forth for yet another historic mission for the cause of the Convention schools and students in Zoudawn on 12th July 2014, at 6.15 a.m. (sharp) from Dorcas Hall, Lamka. Unlike, the previous years, for the first time, this year the PN Team's objective was to visit the Convention English Schools in Zoudawn for a week. During which, the Team members are expected to render various kind of assistance, which include teaching, and motivating the students as well as the teachers. They will also, try to understand the various problems that are there and if the need arises will encourage the parents to send their children to attend school. So that, through this initiative PN can touch them, relate with them and bring about the necessary changes wherever required. And for that, the PN Core team selected two Convention English Schools in Kangkap and Bukpi respectively.

The team lead by Htn Zenn-gaihniang (Team co-ordinator) was divided into two Teams. One team for Kangkap CES, with three members (Zenn-gaihniang, Joycee Vunghoihkim and Kapgoulal), and

another team for BukPi CES, with two members (chinkhansiam and khamhauthang) respectively. So, with huge responsibilities and expectations, and prayers behind their backs the Team with htp Sonpi (uson) took the Tipaimukh route in a sumo driven by Biaklal.

Town after town, the Tipaimukh route was pleasant with cold wind every now-and-then and a beautiful landscape with smooth road. However, I have to admit that with the narrow road, the turns were too curvy. This forced me to admire the skill of the driver. Soon, we reached Chiangpi where we ate the breakfast which infused some amount of energy in us. And after that except for loo, and clicking snaps we continued our journey diligently with jokes and by listening to songs. I have to confess that, so far, on our way there were so many beautiful natural sceneries which were damn awesome. Making me realized that, our land is also full of natural beauties.

When we reached Thanlon, Uson led us into the house of District Superintendent (DS) Rev. Tuanglang, who welcomed us with lots of appreciation and encouragement for the PN initiatives. As well as with plates of pine apples, which were so delicious. After

spending almost an hour there which seems only few minutes, he send us off with a prayer. Hence, we set forth Bukpi around 1.00 pm. Next village was Dialkhai, then Zoutung and finally BukPi.

We reached Bukpi around 3.30 p.m. in the evening. The Village was quite large than what we expected it to be, with the tipaimukh road (NH02) passing through the entire length of the village. We were greeted warmly by the Head master and his family with few teachers and the chairman of the school sub-committee. Since, the sumo was to drop the other team to KangKap which was another 5-6 hours long journey from Bukpi, we quickly un-loaded our stuffs. They left, after a cup of tea and a prayer by the Head Master Uthang, with the dilemma of whether to spend the night at Sinzawl or to go directly to Kangkap no matter how late it might get. We bid adieu, but to see each other again in 6 days. Days later, we came to know that they did not stop at Sinzawl, and reached Kangkap at around 9.45 pm at night.

After, refreshing ourselves with a bath and after arranging our stuffs, just when we were sitting with uthang (sir Head) and sir Muan (a teacher), Pa Siam(local Upa Thangkhansiam) approaches us requesting us to take few minutes in the church service later tonight (Saturday night service). After little discussion, we agreed and Hahau made use of the given opportunity to put forward the purpose and objectives of PN in Bukpi in particular and for Convention schools in general. The service was short, yet enjoyable. Few handshakes here and there with words of praise and ap-

preciation for PN and Delhi BYF. We also came to notice that their church is also as big as ours with theirs having more space for the stage (pulpit).

Since, our base (head master quarter and pastor qaurter) was a walking distance away. We reached quickly and were joined by Umuan (teacher) and Pa Siam. With them, we had a general talk about bukpi and ourselves.

The next day was Sunday, and we woke up quite early. Surprising not only ourselves, but, our hosts as well. Therefore, after a morning tea, we decided to go and see the school and its premises to make us more acquaint of the school and the place. So, with Lalboi, who was our guide, we went to the school and took few snaps as well. Not only that, we also have little more clue about the length and breadth of the village, which was looking beautiful with the early morning sun rays falling on the

rooftops, wet tree leaves and wet grasses. Something which is hardly seen in city like Delhi, where the geography is dominated by concrete walls and buildings.

Sunday morning service was Sunday school, which was taken by Uthang (sir head). It seems that, in the absence of Pastor (went to Lamka, to look after his ailing wife), the Sunday school is usually taken by Uthang. Unexpectedly, the gathering was less, keeping in mind the numbers of houses, but then we blamed it to the world cup fever. One significant feature was that. There were many volunteers who came memorised to church the verse for that particular Sunday school teaching. They were asked to stand up and recite the verse together in the church. Something which is worth practising in delhi as well.

In the Sunday night service in the church, the PN team were again given a slot by Upa Ginzakh-

up. This time around PN team member, sir Siam, took the opportunity to let the congregation acquaint with the Delhi church, about the prayer cells and the BYF area fellowships etc. He further, made a sharing on Rebuilding: its importance and positives, basing himself with biblical verse Nehemiah 1:9.

After the Sunday night service, the ice breaking and introduction get together with the CES teachers, was held at Uthang's place. All of them were present except sir MT, who was undergoing music training in Lamka. We spend the time introducing ourselves and what are the possible challenges and issues the teachers as well as the students were facing. It was a very fruitful meeting, making us more comfortable and acquainted regarding the ways the school was being maintained, how classes were taken and the daily routines etc.

### CONVENTION ENGLISH SCHOOL, BUKPI

*Class: Nursery to Class VIII | Total Students: 227*

- There are three permanent teachers : Sir Head, Sir LM , sir MB
- Rest are casual teachers.
- Teachers maintain use of English in the class, staff room as well as during teacher's fellowship.
- The school begins at 8.30 am till 2.30 pm with 30 minutes long break at 12.30 pm. The actual class starts at 9.00 am.
- Periods are of 40 minutes each with seven periods a day.
- There are morning assemblies on Mondays and Thursdays, where by inspections of uniforms and cleanliness of students is done.
- On Tuesdays, Wednesdays and Fridays, there is devotion where, gospel songs are sang, with scripture reading, special numbers (class wise), then a message/speech, followed by a closing prayer (the Lord's prayer).
- Teachers are also responsible for different duties as in
  - Discipline and cleanliness : Sir KT
  - Sports and recreation : Sir MB
  - Songs and scriptures :Sir LM
  - Medical care team : Miss NV
  - Devotion programmes in-charge. Miss MN and Miss NC
- Friday is a casual dress day with a freedom to wear anything. One

or two classes are held on this days followed by sports curriculum at the public ground.

- Besides these, the teachers have a fellowship after each schooling hour for about 20-30 minutes in English.
- We were also told that the students and the children in general are shy in Bukpi. So, we were hinted not to expect a vibrant students and class in the school. We were asked not to take it seriously, if students don't reciprocate as per our expectations. Something which, we have to prepare ourselves for.
- From the students, to the teachers and to the parents, the major issue is of English. Each one is aware that they need an improvement in English.

### Monday (first day)

During the assembly, which was held in open air, we were introduced and we both took the time to introduce and explain project Nehemiah in detail: Its purposes and objectives as well to the students. After which inspections of uniforms were done by each class teachers and then, the assembly was closed with the Lord's Prayer.

Next, we visited each class from nursery to class VIII with Sir Head, carrying the toffees that we brought for them. Giving to them, the toffees once we had done interacting with each student in each class.

After this exercise, since Sir MT was unavailable, we have to fill his place and we started to take classes one after the other. We were nervous initially, but soon it was getting interesting and 40 minutes periods seem short.

### Tuesday (Second day)

Devotion was held, by removing the movable/portable walls of the classes, to give and bring about the feel of a large hall. There was singing led by class III, scripture reading and a special number by Class I. Since, the PN team was given the time. We took this op-

portunity to give away the gifts that we brought for them from Delhi, which were received with huge cheers and claps. The Head Master also took few minutes to thanks the PN initiatives, encouraging the students to not to disappoint the PN team. The devotion was again closed with the Lord's Prayer.

After which we as regular teachers took classes, teaching them, interacting with them to understand them, and to motivate them.

### Wednesday (third day)

Since, it was the Devotion day again; the singing was led by class IV, followed by the scripture reading and then a special number by Class II. The speech/message hon-

our was given to us. As per expectation, sir Hahau gave an inspirational message based on biblical verse

Isaiah 40: 30-31. After which, the devotion was closed with the Lord's Prayer.

The same routine of teaching and interaction was continued. But, that day, we had two students falling ill. While one was mild, the other was serious, who felt an

acute pain in her stomach, making her unconscious. Forcing us, to drop her to her house during the school hour.

After school hour, all the teachers visited her, and at that time also she was unconscious. Sir Head, took a time to pray for the little girl and then, we all left for home. Her conditioned stayed the same for the next one day, but by grace of God, on the third she was reported to have gained strength to even watch Television. Meaning she has improved significantly.

### Thursday (fourth day)

The day began with an assembly, with inspections and a prayer. A photo session followed the assembly, which turned out to be a tasking exercise than expected, initially. As arranging the large number of students and focussing the limited range of the old digital cam in the age of DSRs was not easy.

Since, we have only two days left, besides teaching the classes, we took some time to go to each class asking them to make something or write something for PN which can be brought back to

The Head Master also took few minutes to thanks the PN initiatives, encouraging the students to not to disappoint the PN team.

Delhi. We decided to give a set of questions to class VII and Class VIII since; they are the senior most classes. Asking them to

give their feedback on PN and its initiatives, and what do they want to improve in their school with a message for PN. For nursery, class A and Class B a painting of anything they like. And for class I to VI, a message, a thank you note or a painting etc. Requesting them

to bring it, the next day. After school, the teachers led us to KULUNG KAWL, which was a great experience.

### Friday (Fifth day)

Since, it was a casual dress day; all the students were looking bright and colourful. The Devotion was led by class V students, followed by a scripture reading, and a special number by Class III. The PN team was again given an honour to give a speech/message. Sir Siam, took the opportunity to thank the students, and the teachers for their supports. Motivating the students to study hard and not to be let down by their conditions. And not to shy away from letting the PN team to let them know of their problems and hardships. So, that a helping hand can be send in any form and any means in future as well. Letting them know the care and love that Delhi BYF and DELHI EBCC has for the zoudawn schools and the students. He finishes the message with a request for remembering one another in prayers. The devotion was closed with the Lord's Prayer.

After the devotion, two periods were held. We also, quickly collected those papers and feedbacks from the students before the classes were over.

Unlike, the other Fridays, this day, the teachers decided to show us (the PN team) SAKEL KAWL, with class VII and Class VIII students. Hence, we set forth for

sightseeing after school. The sumo for the trip was arranged by sir Hau and sir Siam, at their personal expenses.

### General Findings

We came to know that there were almost 210 houses in all and there is Bukpi bethel 2 kms away from where we are, which is also considered as Bukpi, having a separate church of its own with few houses close to 40. Thus, bukpi is

*Despite of huge numbers of houses, the church gathering seems less especially the youth. Whenever, we got the chance to roam around, there were only few youths to be seen. Some were found to be playing football in the field in the evening. However, the BYF choir is very good despite of their less number. Making me wonder, how good they would have been a year or two ago.*

relatively a large village in comparison to nearby villages and other Paite villages.

The weather is pleasant, with cold and foggy morning and night and a bright sunny afternoon with rains in between. The people are warm and easy to mingle with. They have their own unique

ways of bonding with others. Their hospitality is beyond expectation.

We also came to know that, in the village all the churches were present (EBCC, COC, Roman catholic, PCI, Sabbath, AG etc). However, one very distinctive feature which is worth mentioning and appreciating is the fact that, in a week on one day, they have a mass prayer in one of these churches alternately. Let's say if this Wednesday it was in EBCC church, then the next Wednesday it will be in COC church. Anyone can attend those prayer meetings, irrespective of their denominations. A great gesture of unity, and togetherness.

There is only one network that works well that is BSNL. That too is very difficult to find. Odd places like window panes, under the beds, high areas or in fields and in mountains are where one seems to find the network. Hence, though people do have mobile phones, they used it more for playing games and watching Sansip than making a call or texting.

Most of them earn their livelihoods through farming and cultivation. So, most of the adults and elder people leaves for their fields early in the morning and return home at almost dawn on a daily basis. People share thing, harvested from their fields with one another. Be it, vegetables, fruits and many other eatable items.

There is a government school as well. But it seems it is not functioning properly as per desired. But during our stay, surprisingly the DI of the government school paid a visit demanding the presence of all the teachers and students one particular morning. It also provided mid day meal on that day.

Despite of huge numbers of houses, the church gathering seems less especially the youth. Whenever, we got the chance to roam around, there were only few youths to be seen. Some were found to be playing football in the field in the evening. However, the BYF choir is very good despite of their less number. Making me wonder, how good they would have been a year or two ago.

Each house has a solar panel if not an inverter. Hence, electricity is not much of a major issue. Moreover, it is expected to reach Bukpi soon as it has already reached Zoutung which is only few kilometres away from Bukpi.

The sanitation level is also quite good. With good water availability, we hardly had any issue during our stay. The water is also soft in nature, which is good for hair, which is visible from the little children soft and silky hairs.

And the village also keeps itself well abreast of important daily news (of state, national and international) as news papers reaches it daily. Thus, though it might be a village, and located deep in zoudawn, Bukpi is one of the largest and advanced villages along the tipaimukh road.

### Farewell Dinner

The school staff unexpectedly decided to have a feast on Friday. The teachers and staff members, who were not coming to SAKEL KAWL, were entrusted with the responsibility of arranging and cooking for the farewell dinner. Hence, when we reached, almost everything was cooked. We then had a fellowship, during which sir head, PN team member Siam and Pa thang (chairman of school sub-committee) had a short sharing each. The fellowship was closed by Pa thang and the dinner was served. After the dinner, while few teachers left early, some stayed back till 9.30-10.00 pm. Was it because of the heavy rain that night? Or was it because they wanted to spend more time with us?. A difficult question to answer though. On a positive note, one of the teachers even murmured "please do not come here, if you are to return back". Hearing of which made us somehow sentimental for a few moments. It's the

cruelty of life that just when the bond is getting strong and when we came to know each other well; then it is time to part ways.

### The return

So it was time to leave on the 19th of July, 2014. Again we woke up early in the morning around 4.30 am and after a short fellowship with Uthang and his family with Pa Siam, we were sent off with a prayer. Hence, we once again set forth for a day long sumo ride from Bukpi at 6.15 am sharp for Lamka via Kangkap where we are to pick the other team.

We retraced the same route till Dialkhai, and then we took the road for sinzawl via muolpheng. After more than five hours of hard driving with bumpy road at most of the times we reached

*From Singngat, we seem to have forgotten all our tiredness. Clapping, and singing out loud along Lalparzo, Biakson, Dove, Shris Tomlin and many more songs being played out through our mobile phones. The bumpy road did not matter to us anymore.*

Kangkap sooner than expected which was located at the slope of a mountain top. We entered the house of the KangKap CES head Mistress with warm greetings and smiling faces. There were many people present, including our fellow three members with the chairman of the school sub-committee and the local chairman as well. Unlike us, Miss Niang, Miss Joycee and Sir Goulal were glowing, despite of spending a week in Singtang. Which somehow, left Sir Siam and Sir Hau surprised and perplexed. We were served lunch which we ate heavily. The head Mistress, after lunch, led us to the Kangkap CES School and we took few minutes to look around.

Then we headed back for their house where we again had a sending off programme, where we were each presented a book as in Gospel centenary souvenir. At 1.00 pm we left for Tuima enroute the shortcut with two volunteers accompanying us in case we get stuck on our way. As anticipated, we stuck twice and both of them proved to be of great help indeed.

On reaching Tuima, after more than an hour ride through shortcut, we stopped there for almost an hour. Visiting the school, which was one of the beneficiaries of the earlier PN initiatives. Again we set forth for Lamka at around close to 4.00 pm. Soon we reached Lungthul, there also we stopped for a brief duration again to visit the school. Then we took the shortcut route, reached Malta Chiangpi, SingNgat and finally Lamka around 9.00 pm at night.

From Singngat, we seem to have forgotten all our tiredness. Clapping, and singing out loud along Lalparzo, Biakson, Dove, Shris Tomlin and many more songs being played out through our mobile phones. The bumpy road did not matter to us anymore. Before we left, every one pitied us when they knew that we are going to take the Guite Road route due to its bumpy nature. But then, maybe we were so enthusiastic to return home that we found it less bumpy that what was made of it by people.

Once we reached Lamka, we again got divided into two teams. One team being dropped by our reliable driver Biaklal, and the other team being dropped by my partner in crime sir Hahau. That is how, the PN zoudawn mission of 2014 is concluded by the Grace of God, who always moved ahead

and guided us from the day one.

As I am finishing this report, I would like to thank the PN core team, and the Delhi BYF committees (both Central and Dwarka) who had this vision and provided us with such a wonderful opportunity to contribute our limited knowledge and abilities for the cause of our own mission schools, teachers and students. The fruits are sure, will not be immediate, but I hope this will serve as the fuel to spark the desire in souls, who had already lost hopes, to know and to realise that far away from them, there are people who still cares for them and for their causes. So, that we continues to be

the agent/catalyst to inspire them to realise their dreams and potentials through this initiatives.

I would like to thank the core Team for arranging a pick up for me, making my journey easy and much more comfortable.

I would also, like to express my sincere thanks and gratitude once gain to Uthang and his family on behalf of Bukpi team for their hospitality, which we can never repay. May God bless them abundantly in return.

I would like to thank the CES teachers and students for their supports and cooperation, without which this mission would have failed miserably.

And i also express my thanks to those who are related to this project Nehemiah in any way, in any form and degree. Be it through prayers or donations. Every contribution is appreciated and valued. It is all because of you people.

Finally, but not the least i thank the Almighty for making all these into reality, who let it happen from the beginning and continuously leadth us till this day. Let all our efforts, works and achievements be for the Glory of God and His kingdom.

Praise the Lord!
